DERMAPEN / DERMAPLANING (FULL FACIAL INCLUDED)

Dermapen is a non-surgical instrument which includes a disposable needle tip cartridge with 12 micro needles. It is used in the repair, renewal and rejuvenation of the skin by naturally stimulating the reformation of fresh collagen. Dermaplaning is a skin treatment that uses a specialized blade similar to a surgical scalpel called a dermatome to remove dead skin and hairs. People may also refer to it as microplaning or blading. The procedure gives facial skin a smooth, youthful, and radiant appearance. As well as smoothing skin and removing "peach fuzz," dermaplaning helps with acne scars, dry skin, sun-damaged skin, and small wrinkles.

Benefits of Dermapen and Dermaplaning:

- Stretch marks
- Wrinkles and fine lines on face, neck, hands and body
- Reduces pore size
- Tightens skin
- Calms Rosacea
- Helps with healing of scars and wounds
- Sun Damage
